DETAILED ACTION

Reasons for Allowance

Claims 3 and 10 are canceled.

Claims 1, 2, 4-9 and 11-14 are allowed.

This is examiner's statement of reasons for allowance.

Claims 1, 2, 5-9 and 12-14 are allowed over the prior art of record because the prior art does not disclose an imaging optical system comprising "...wherein an optical path of a light beam passing through a center of the diaphragm and a center of an image obtained through the imaging is deflected by the off-axial reflection surfaces within a surface perpendicular to the long side direction of the region to undergo crossing at least once wherein all of the off-axial reflection surfaces satisfy a conditional expression:

$|P|S \geq 0.5$

where P (mm^{-1}) represents an optical power of the off-axial reflection surface within the surface perpendicular to the long side direction and S (mm) represents a distance from the off-axial reflection surface to a subsequent one of the off-axial reflection surfaces along a reference axis."

Claims 4 and 11 are allowed over the prior art of record because the prior art does not disclose an imaging optical system comprising “a first set of a plurality of off-axial reflection surfaces arranged on an object surface side from the diaphragm; and a second set of a plurality of off-axial reflection surfaces arranged on an image surface side from the diaphragm, wherein an optical path of a light beam passing through a center of said diaphragm and a center of an image obtained through the imaging is deflected by said off-axial reflection surfaces within a surface perpendicular to said long side direction of said object region to undergo crossing at least once, and, wherein the number (X) of off-axial reflection surfaces included in the first set of the plurality of off-axial reflection surfaces and the number (Y) of off-axial reflection surfaces included in the second set of the plurality of off-axial reflection surfaces satisfy a relation: $0.65 < X/Y < 1.6$.”

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
